READ DTCS

Connect PPC to the car's diagnostic connector with the OBDII cable. The diagnostic connector is located in the dash board under the steering wheel (more info about the location at **www.bsr.se/ppc**). Turn the ignition on.
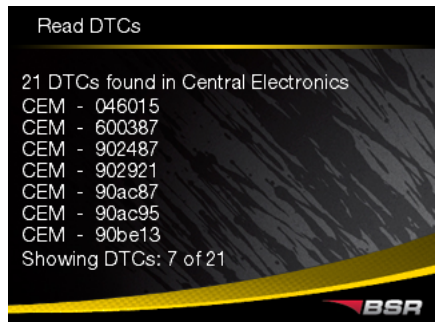

Select "Read DTCs" and press enter.

Press enter to start reading.

Do not forget to turn the ignition on. How to turn the ignition on is described at **www.bsr.se/ppc**.
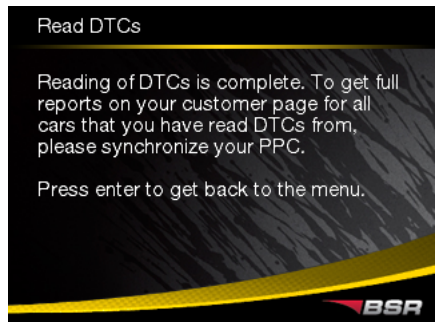

Reading DTCs.

All DTCs that have been found is displayed. You can browse up and down with the arrows. Go back with the left arrow.

All DTCs are saved in the PPC's memory, which can hold several readouts. You can, anytime, send all DTCs to your customer page **www.bsr.se/ppc** by simply synchronizing the PPC via the Internet. On the customer page a detailed DTC report with explaining texts is displayed. The DTCs are sorted by each car.
ERASE DTCS

Connect PPC to the car's diagnostic connector with the OBDII cable. The diagnostic connector is located in the dash board under the steering wheel (more info about the location at **www.bsr.se/ppc**). Turn the ignition on.

Select "Erase DTCs" and press enter.

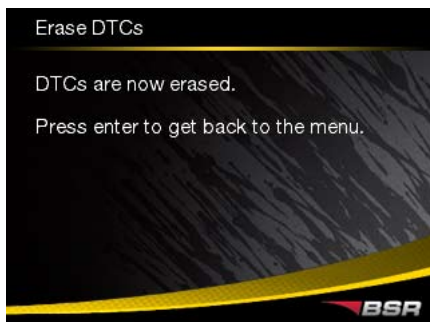

Press enter to erase DTCs.

Do not forget to turn the ignition on. How to turn the ignition on is described at **www.bsr.se/ppc**.

Erasing DTCs.

You can now disconnect the PPC from your car.
